

Features and Benefits

- Adjustable air bladder allows inflation level to be customized
- Removable overlay is designed to stay in place and allows the clinician to modify the base for a custom fit
- Ergonomic contoured base, helps maintain proper posture and reduces fatigue
- High-density, high-resilience foam base for long lasting support
- Deep well to allow full submersion of the IT and coccyx for great skin protection at these vulnerable points. Also, helps prevent sacral sitting and promotes proper posture
- Moisture wicking, four-way stretch, and fluid resistant cover keeps the user dry and comfortable while allowing them to form into the air bladder
